EDUCATION

Indian Institute Of Technology Delhi (2023-2025)

M. Sc. In Mathematics - CGPA - 6.00

Techno Mission International School (2018-2020)

Class 12th

Deshbandhu College, University of Delhi (2020 – 2023)

B. Sc. In Mathematics - CGPA - 8.824

De Nobili School (ICSE) (2017-2018)

Class 10th

PROJECTS

IPL Statistics & Performance Analytics System

Power BI · Data Modelling · DAX · Data Cleaning · Visualization · Dashboard Design

April 2025 – May 2025

- Built an interactive **Power BI** analytics system covering **17 IPL seasons** with Overview, Team, and Player Profile dashboards; delivered **10+ visualisations** including runs distribution, wickets leaderboard, win percentages, and top scorers.
- Modelled **batting, bowling, and match summary** datasets with robust DAX relationships; implemented **slicers, cross-highlighting, and drill-through navigation** for detailed team and player comparisons across venues and seasons.

Supply Chain & Inventory Analytics Dashboard

Python · MySQL · Streamlit · Pandas

Dec 2024

- Built a **Streamlit** dashboard over **5 relational tables** using **Python-MySQL integration** with advanced SQL queries (aggregations, joins, subqueries) and **3-month rolling sales analysis** to track inventory KPIs and restock thresholds.
- Automated **reorder risk detection** by flagging low-stock products with pending transactions, enabling real-time supply chain monitoring and structured reporting across product and supplier dimensions.

Laptop Price Prediction — End-to-End ML Regression Pipeline

Python · Pandas · Numpy · Scikit-Learn · Matplotlib · Seaborn

Jan 2025 – Feb 2025

- Achieved **$R^2 = 0.896$** and **$MAE \approx 0.15$** (log-price scale) using **XGBoost** across **1,300+ records**, identifying SSD capacity, PPI, CPU class, and GPU brand as dominant pricing factors.
- Evaluated **10+ models** including Random Forest, Gradient Boosting, and SVR using an automated pipeline with **ColumnTransformer, One-Hot Encoding**, and log-price transformation.

TECHNICAL SKILLS

Languages & Databases: Python, SQL, PostgreSQL, MySQL, MongoDB, Snowflake

Python (Libraries & Frameworks): NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn

Machine Learning (Algorithms): Regression (Simple Linear, Multiple Linear, and Polynomial), Regularization (Ridge, Lasso, and ElasticNet), Classification (Logistic and Multinomial Logistic), Decision Trees, Random Forest, XGBoost

Data Engineering: Snowflake, MySQL, PostgreSQL, MongoDB

Visualization & BI Tools: Power BI, DAX, Matplotlib, Seaborn, Excel

Tools & Software: GitHub, Jupyter, Google Colab, MATLAB, Wolfram Mathematica, LaTeX

CERTIFICATES

- Data Analytics Projects Certification – CampusX
